The Four of Hearts By Virginia Terhune

Friends of Years, Who Like but Do Not Love, Decide to Become Betrothed Before Separation of Months.

Become Betrothed Before Separation of Months.

Dera Livingstone, flushed and a little breathless from dancing, looked up laughingly into the face of her except.

The lappear any elder than I did resterday? she asked. "And don't you think my combined coming out and hirthday party is a success?"

Tex indeed, he said heartilly. "Which part of my question is that an answer to?" she challenged. "The first half, or the face." The last half, of course, the man resided, gazing with indiguised somiration down into the cark brown eyes raised to his.

While there was admiration in the look, the arder of a lover was looking. Yet Dora Livingstones was, at the present moment, pertry enough to bring a quick throot to any macculine heart.

Of medium height, her figure was rounded without being plump. Her hand and feel were small and well shaped. Her hair was very dark and her righ hrunette coloring was without a flaw. The rather full lips and elightly retrouses uose gave a piquant flaw. The rather full lips and elightly retrouses uose gave a piquant flaw. The rather full lips and elightly retrouses uose gave a piquant flaw. The rather full lips and elightly retrouses uose gave a piquant flaw in her personality.

Tex as he looked at him, it was with the frank gaze of a comrade who demands recognition—not the shy glance of a girl who desires admiration.

Mitton had been graduated frem of lege last June. This was Novumber, and he was to start tomorrow for a trip to California and through the weekers states before sattling down in his father's office. Van Saun, art was a prosperous merchanit, and there was no hurry about his son's begin work.

She imigned, but there was a little team of the hurry about his son's begin work.

How to Save Food

In these dars when the high cost of fiving pinches nearly every home, no waste should be overlooked. One of the most fingrant and most easily prevented, is the destruction of food by rain. One rai will often do a hundred dollars' damage of food and property in a single night, and a careful estimate gives over \$700,000,000 as the value of foodstuffs destroyed annually by there peats. Exterminate them with Stearns' Electric Paste and save this enormous loss of food. A small how of Stearns' Electric Paste costs only a few cents and is usually enough to completely rid the house of rats and mice; slee effective against cockroaches and waterbugs.—Adv.

The Young Lady Across The Way

Beauty Chats By Edna Kent Forbes

Farming a Beauty Exercise.

KNOW, eight in the beginning, that a no farmer's wife is soing to agree with this statement of mine. Nevertheless, it is true that farming can be made a beauty exercise. I have had proofs of this, over and ever again, among women friends of mine who have gone out as farmerettes and who have come back stronger and bet-
